Education

Western Governors University, Computer Science

Online
June 2025 – present

Mary Baldwin University, Mathematics

Staunton, VA
2018 – 2019

Experience

Pho One-O, Restaurant Server

Odenton, Maryland
Sept 2024 – Nov 2025
1 year 3 months

- Onboarded restaurant manager, conveyed our standards, taught him all the roles they would need to play, etc.
- Assisted in hiring and training new members of our team, taught them standards and tricks to do their jobs effectively, transferred adherence to our high standards.
- Excelled in high-paced environment, served and interacted with customers, maintained a positive and professional environment, established positive relationships with customers.
- Reliable work ethic, opened the restaurant in the morning, closed the restaurant in the evening.

Data Annotation, Data Annotator

Remote
Apr 2024 – June 2025
1 year 3 months

Applied Python, Pandas, and NumPy for data processing and analysis. Contributed to AI model development through precise data annotation.

- Demonstrated proficiency in various programming languages and JavaScript frameworks.
- Utilized Docker for scalable code environments.

Freelance Web Developer, Full Stack Developer

Remote
Mar 2023 – June 2024
1 year 4 months

Continued freelance work, focusing on full-stack web development and scalable solutions.

- Maintained client communication and delivered solutions using React.js, Vue.js, Node.js, and Express.js.
- Managed databases and utilized Docker for efficient development.

Infinite Closet, Senior Software Engineer

Remote
Feb 2021 – Jan 2023
2 years

Led development of an e-commerce startup's website.

- Built frontend using React.js, Next.js, and TypeScript.
- Designed backend services with Node.js and PostgreSQL.
- Orchestrated CI/CD pipelines and Docker deployments on Digital Ocean.

Freelance Web Developer, Full Stack Developer

Remote
Dec 2019 – Jan 2021
1 year 2 months

- Developed and deployed full-stack web applications using React.js and Vue.js.
- Implemented CI/CD pipelines on AWS.

Wells Window Cleaning, Window Cleaner

DMV Area
May 2016 – Nov 2020
4 years 7 months

Employed attention to detail, precision, and customer service for high-end residential houses.

Projects

Infinite Closet E-Commerce Platform

Owned the end-to-end development of a full-stack clothing rental platform, delivering a scalable solution from backend architecture to frontend UI.

- Engineered a modular system supporting **35,000+ lines of code** with 3rd-party integrations for Hived, ACS, and Stripe.
- Built a non-technical friendly Admin Panel for content management and a complex date-selection booking engine.
- Implemented a robust DevOps pipeline using Docker Compose and GitHub Actions for automated testing and deployment.

zortex.nvim

Developed a specialized Neovim plugin for notification management and calendar synchronization.

- Built a custom notification server with seamless calendar integration.
- Created a dedicated NixOS module and systemd service to manage background processes.
- Integrated the plugin within a LazyVim ecosystem for enhanced developer workflow.

NixOS Homelab Configuration

Designed and maintained a declarative infrastructure-as-code repository for a NixOS-based homelab.

- Automated the deployment of self-hosted services including Nextcloud, Vaultwarden, and monitoring tools.
- Configured and optimized Minecraft servers for multi-user environments.
- Implemented modular Nix configurations to ensure reproducible system states across multiple hosts.
